If you have booked **BOTH** the *STAT Multiple Choice* and *STAT Written English* tests with ACER, you will need to **schedule each test component separately in the ProctorU system**. If you plan to sit one test straight after the other, **please allow at least one hour** in between the two test sessions.

Pre-test procedures can take **around 30 minutes** (this does not count towards your test time). For example, if you plan to sit the Multiple Choice test followed by the Written English test and have scheduled your Multiple Choice test session at 10.00am, you are advised to schedule your Written English session to start after 1.00pm. After you have scheduled your session(s), you will receive a verification and confirmation email from ProctorU. If you do not receive the email, please contact ProctorU.

Test session(s) can only be scheduled/rescheduled to take place during the test window you registered for. It is not possible to reschedule online test session(s) from one test window to a subsequent test window. Please note that once you have scheduled your session(s) with ProctorU, you can change your session(s) day/time within the test window you registered for. Test sessions can be rescheduled **up to 72 hours** before the end of the online test window.

You are strongly advised to complete all of the necessary equipment checks, and to allow enough time for rescheduling your test session within the test window (if necessary) due to genuine misadventure or unforeseeable technical problems.

Step 6 – Your Admission Ticket

Log in to your [ACER user account](#) to access your Admission Ticket. Once logged in, click the tab labelled 'Online Test Registration'.

Click the 'View Admission Ticket' button.

Sit STAT Online Test

You have booked to sit STAT Online Test for the 2018 cycle. Your booking(s) are:

- Component(s): Multiple Choice; Test centre: Online

Manage the Multiple Choice test booking View Admission Ticket

You must have your Admission Ticket at the test sitting (digital or printed), together with your [ID document](#).

Your Admission Ticket contains important details, including your username to access your online STAT test. You will be required to show both documents prior to your test session being activated by the proctor. Please note, your Admission Ticket should have your details printed on it. If they do not display in the printed copy, check that Javascript is enabled (See how: <http://www.enable-javascript.com>).

Step 7 – Download the Test Security App

To sit the test online, **you are required to download and install the Test Security App.**

The download links are available in your [ACER online account](#) (once created). You must install the application on the computer that you intend to sit the test with. **It is important that you download and install the App prior to proceeding with your test registration, as you will not be able to sit the test without having the App ready to use on your test day.**

Please note: **DO NOT attempt to log in or run the App until your scheduled test day(s).**

If you are unable to install the application on your computer, you will not be able to sit the test online.

Unpermitted programs will be detected by the STAT Security App while you are sitting the test. Your test will be locked and you will not be able to continue the test if such programs are detected. Hence, please ensure any remote controlling software such as TeamViewer and VNC have been disabled or uninstalled before you sit the test.

Step 8 – Test Day

The only things you are allowed to bring to the test session are:

- Printed or digital STAT Admission Ticket
- A valid and current photo-bearing identity document
- A pen/pencil and one page of blank paper for rough working (optional)

We strongly suggest visiting the toilet and having a meal and drink before you take your test.

Log in to your [ProctorU account](#), ready for your test **at least 5 minutes before the scheduled session(s)**.

At your scheduled test time, a button to start the test for your session will appear. The countdown timer for the scheduled test session will reach zero.

Click the button to '**Start the Test Session**'. You will be connected to ProctorU and a proctor will assist you through the entire test process, including the pre-test administrative and technical checks. **Pre-test administrative procedures can take around 30 minutes** (this does not count as test time).

When you connect to your proctor, your printed Admission Ticket and [appropriate photo ID](#) will be checked. Your photo will also be taken by the proctor.

The proctor will ask you to use your webcam to scan your test room. This is to ensure the environment meets the requirements before you are permitted to start the test. You may be asked to scan your test room again during the test session, if your proctor suspects any act of misconduct.

After the pre-test administrative checks have been completed, your proctor will run the STAT Security App on your computer/laptop to allow you to sit your test. **Your username** for the App is stated on your ACER **Admission Ticket**. Your proctor will enter the password to access the test.
